Hazy Views: The Prequel to Murky Waters Rising

Karl Marlantes's debut novel Matterhorn, a New York Times Notable Book and winner of the Center for Fiction's Flaherty-Dunnan First Novel Prize, has been hailed as a modern classic of war literature. In his new novel, Deep River, Marlantes turns to another mode of storytelling—the family epic—to craft a stunningly expansive narrative that is no less rich and honest in its depiction of human suffering, courage, and reinvention. Born into a farm family in late nineteenth-century Finland, the three Koski siblings—Ilmari, Matti, and Aino—are brought up on the virtue of maintaining their sisu in the face of increasing hardship, especially after their nationalist father is arrested by imperial Russian authorities, never to be seen again. Lured by the prospects of the Homestead Act, Ilmari and Matti set sail for America, and the politicized young Aino, haunted by the specter of betrayal after her Marxist cell is disastrously exposed, follows soon after. Not far from the majestic Columbia River and in the shadow of Douglas firs a hundred meters high, the brothers have established themselves among a logging community in southern Washington, and it is here, in the New World, that each sibling comes into their own—Ilmari as the family's spiritual rock; Matti as a fearless logger and the embodiment of the entrepreneurial spirit; and Aino as a fiercely independent woman and union activist who, time and again, sacrifices for the political beliefs that have sustained her through it all. Layered with fascinating historical detail, this is a novel that breathes deeply of the sun-dappled forest and bears witness to the stump-ridden fields the loggers, and the first waves of modernity, leave behind. At its heart, Deep River is an extraordinarily ambitious exploration of the place of the individual, and of the immigrant, in an America still in the process of defining its own identity.

Transformation from Murky Waters

Bad boys can catch you, hook, line, and sinker . . . Kyra had always been the baby. Third mermaid daughter of three, she had been overprotected since birth. More interested in boys and makeup than adventures like sister Zoe or inheriting command of Sirenia like Ava, she studies underwater dance at the academy and spends her spare time flirting with mermen. But when she catches a member of Poseidon's security team dismantling the safe that protects the mermaid treasures, she fears the worst. The problem? Thanks to her practiced naivete, nobody takes her warning seriously. Kyra embarks on a double life: Lolita by day, Mata Hari by night. Navigating cloudy waters tainted by the ink of squid intended to hide the merman's trail, she leaves the safety of Sirenia and follows his path . . . until that path leads to his dead body. With an unknown killer inside Sirenia, Kyra knows no one is safe. Lacking the drive and bravery of her two older sisters, she uses her purity to discover the truth, but what happens when her childlike charm hooks a dangerous killer? Hidden reserves of courage could save her life . . . or leave her dangling on the line. What happens when a sweet mermaid suspects corruption in the ranks? If you're that mermaid, you might have to grow up fast. Murky Waters is the second splashy story in the Mermaid Sister Mystery Series. If you like short reads, mermaid folklore, and beatnik archetypes, you'll love Diane Vallere's unique underwater adventures.

"More than five years have passed since India launched its first ballistic missile submarine (SSBN) in July 2009. Meanwhile, Pakistan formally inaugurated a Naval Strategic Force Command headquarters in 2012 and has declared its intent to develop its own sea-based deterrent. As India and Pakistan develop their naval nuclear forces, they will enter increasingly murky waters. By further institutionalizing relations between their navies and by insisting on stronger transparency with regard to naval nuclear developments, both countries may succeed in adding a greater degree of stability to what otherwise promises to be a dangerously volatile maritime environment"—Publisher's web site.

This handbook takes a multi-disciplinary approach to offer a current state-of-art survey of intercultural communication (IC) studies. The chapters aim for conceptual comprehension, theoretical clarity and empirical understanding with good practical implications. Attention is mostly on face to face communication and networked communication facilitated by digital technologies, much less on technically reproduced mass communication. Contributions cover both cross cultural communication (implicit or explicit comparative works on communication practices across cultures) and intercultural communication (works on communication involving parties of diverse cultural backgrounds). Topics include generally histories of IC research, theoretical perspectives, non-western theories, and cultural communication; specifically communication styles, emotions, interpersonal relationships, ethnocentrism, stereotypes, cultural learning, cross cultural adaptation, and cross border messages; and particular context of conflicts, social change, aging, business, health, and new media. Although the book is prepared for graduate students and academicians, intercultural communication practitioners will also find something useful here.

I'm writing to share how I've learned to journey through life, with God, gratitude and peace within my heart. I love flowers, the smell, the feel and the beauty they create. They start as a seed and as long as it is properly nurtured, it blooms into the most beautiful sight. When the seasons change some flowers are able to withstand the storms, while others die or become dormant until a new season comes. I choose to use the lotus flower as the art piece for this book. The reason for this is how a lotus is created. It emerges from the depths of the muddy swamp and blooms the most beautiful flower that opens when the sun rises and at nightfall it closes and goes beneath the water until dawn. The process reminds me of how we were created and ever changing. According to research it takes 60 days to change a habit; within 30 days you will notice the change, and 60 days for others to notice. My desire is for this book to brighten the light that is already within you and you blossom to greatness.

In the early 1930s, in the workroom of the famous Parisian jeweler Boivin, a young jewelry designer named Juliette Moutard created one of the most coveted pieces of jewelry in the world—the famous starfish pin—still sought after today by aficionados of fine jewelry. The starfish, created out of gold and encrusted with 71 cabochon rubies and 241 small amethysts, was distinctive because its five rays were articulated, meaning that they could curl and conform to the bustline or shoulder of the women who wore it. The House of Boivin made three of them. Two of the women who bought and wore the starfish were Claudette Colbert and Millicent Rogers. Obsessed with the pin after she saw it in the private showroom of a Manhattan jewelry merchant, Cherie Burns set off on a journey to find out all she could about these fascinating pins and the women who owned them. Her search took her to Paris, London, New York, and Hollywood. Both a history of fine jewelry coming out of Paris in the Golden Age and a tour through the secretive world of high-end, privately-sold jewelry, Diving for Starfish is a stylish detective story with a glittering piece of jewelry at its heart.

These bound words, once laid upon loose leaf, are scattered, written sometimes faster than I would think. Therefore, when I would read back through them, I would tend to be surprised. I dont think I knew what my writing was about until I finished retyping these poems for the...
book. Most of my poetry had the same theme. Out of the 800 or so poems that I had written over the years, most dealt with loss, if not death. I don't know what death I was writing about. Maybe it was a dying soul. But shortly after my book was accepted to be published, I experienced the pain of death as my dedication clearly shows. As I typed my poetry once more, I realized I had been preparing myself for what was to come. Many of my poems have hidden meanings, even to me. I think the first person to read my book should be me.

A picture book celebration of the indomitable Muddy Waters, a blues musician whose fierce and electric sound laid the groundwork for what would become rock and roll. Muddy Waters was never good at doing what he was told. When Grandma Della said the blues wouldn't put food on the table, Muddy didn't listen. And when record producers told him no one wanted to listen to a country boy playing country blues, Muddy ignored them as well. This tenacious streak carried Muddy from the hardscrabble fields of Mississippi to the smoky juke joints of Chicago and finally to a recording studio where a landmark record was made. Soon the world fell in love with the tough spirit of Muddy Waters. In blues-infused prose and soulful illustrations, Michael Mahin and award-winning artist Evan Turk tell Muddy's fascinating and inspiring story of struggle, determination, and hope.

What is it like to dive in the murky depths of the ocean? How do you raise the wreck of a ship or aircraft? Here, Kenneth Clark relives his diving experiences from training in the 1950s, to being awarded the Gold Sub Aqua Medal by the Duke of Edinburgh. His achievements include helping raise the Gitana from Loch Rannoch in 1978. At the time, it was the heaviest wreck ever salvaged by amateur divers.
